Chapter 1: Principles of unity and budgetary accuracy

Article 6: Scope of the budget of the EPPO

1. For each financial year, the budget of the EPPO shall forecast and authorise all revenue and expenditure considered necessary for the EPPO. It shall comprise the revenue and expenditure of the EPPO, including administrative expenditure.
2. The budget of the EPPO shall contain the following:
 - (a) non-differentiated appropriations;
 - (b) where justified by operational needs, differentiated appropriations, which consist of commitment appropriations and payment appropriations.
3. The appropriations authorized for the financial year shall consist of:
 - (a) appropriations consisting of the annual contribution granted by the Union;

5. Commitment appropriations shall cover the total cost of the legal commitments entered into during the financial year, subject to Article 75(2).
6. Payment appropriations shall cover payments made to honour the legal commitments entered into in the financial year or preceding financial years.
7. Paragraphs 3 and 5 of this Article shall not prevent appropriations being committed globally or budgetary commitments being made in annual instalments as respectively provided for in point (b) of Article 74(1) and in Article 74(2).

Article 7: Contribution agreements, grant agreements and financial framework partnerships

1. Contribution agreements and grant agreements may be exceptionally concluded between the Commission and the EPPO provided that the following conditions are met:

- (a) the constituent act of the EPPO or a basic act expressly provides for such possibility;
- (b) the conclusion of such an agreement is duly justified by the special nature of the action and specific expertise of the EPPO;
- (c) the tasks to be implemented by the EPPO under the agreement satisfy the following criteria:
 - (i) fall within the scope of the EPPO's objectives and the tasks are compatible with the EPPO's mandate as set out in the constituent act;
 - (ii) the tasks do not form part of the tasks assigned to the EPPO in the constituent act and financed by the annual contribution granted to it by the Union.

2. Where contribution agreements and grant agreements referred in paragraph 1 and service-level agreements are concluded for services offered by the EPPO to the Commission, the Commission may establish a financial framework partnership agreement with the EPPO in line with Article 130 of Regulation (EU, Euratom) 2018/1046.

Article 8: Specific rules on the principles of unity and budgetary accuracy

1. All revenue and expenditure shall be booked to a budget line in the budget of the EPPO.
2. No expenditure may be committed or authorised in excess of the appropriations authorised by the budget of the EPPO.
3. An appropriation may be entered in the budget of the EPPO only if it is for an item of expenditure considered necessary.
4. Interest generated by pre-financing payments made from the budget of the EPPO shall not be due to the EPPO except as otherwise provided in the contribution agreements referred to in Article 7.

Chapter 2: Principle of annuality

Article 9: Definition

The appropriations entered in the budget of the EPPO shall be authorised for a financial year that shall run from 1 January to 31 December.

Article 10: Budgetary accounting for revenue and appropriations

1. The EPPO's revenue of a financial year, as referred to in Article 6, shall be entered in the accounts for that financial year on the basis of the amounts collected during that financial year.
2. The revenue of the EPPO shall give rise to an equivalent amount of payment appropriations.
3. Commitments shall be entered in the accounts for a financial year on the basis of the legal commitments entered into up to 31 December of that year. However, the global budgetary commitments referred to in point (b) of Article 74(1) shall be entered in the accounts for a financial year on the basis of the budgetary commitments up to 31 December of that year.
4. Payments shall be entered in the accounts for a financial year on the basis of the payments made by the accounting officer by 31 December of that year.
5. Where a constituent act provides that clearly defined tasks are financed separately or where the EPPO implements agreements concluded in accordance with Article 7, the EPPO shall have specific budget lines on the revenue and expenditure operations. The EPPO shall clearly identify each group of tasks in its resource programming included in the single programming document drawn up pursuant to Article 32.

Article 11: Commitment of appropriations

1. The appropriations entered in the budget of the EPPO may be committed with effect from 1 January, once the budget of the EPPO has been definitively adopted.
2. As of 15 October of the financial year, routine administrative expenditure may be committed in advance against the appropriations provided for the following financial year, provided that the expenditure has been approved in the last budget of the EPPO duly adopted, and only up to a maximum of one quarter of the appropriations decided upon by the College on the corresponding budget line for the current financial year.

Article 12: Cancellation and carry-over of appropriations

1. Appropriations which have not been used by the end of the financial year for which they were entered shall be cancelled, unless they are carried over in accordance with paragraphs 2 and 4.
2. The following appropriations may be carried over by a decision taken pursuant to paragraph 3, but only to the following financial year:
 - (a) commitment appropriations and non-differentiated appropriations, for which most of the preparatory stages of the commitment procedure have been completed by 31 December of the financial year. Such appropriations may be committed up to 31 March of the following financial year, with the exception of non-differentiated appropriations related to building projects which may be committed up to 31 December of the following financial year;

(b) payment appropriations which are needed to cover existing commitments or commitments linked to commitment appropriations carried over, where the payment appropriations provided for in the relevant budget lines for the following financial year are insufficient.

With regard to point (b) of the first subparagraph, the EPPO shall first use the appropriations authorised for the current financial year and shall not use the appropriations carried over until the former are exhausted.

3. The College, on a proposal made by the European Chief Prosecutor and drawn up by the Administrative Director, shall take its decision on carry-overs as referred to in paragraph 2 by 15 February of the following financial year.

4. Appropriations shall be automatically carried over in respect of:

(a) appropriations corresponding to internal assigned revenue. Such appropriations may be carried over only to the following financial year and may be committed up to 31 December of that year, with the exception of the internal assigned revenue from lettings and the sale of buildings and land referred to in point (e) of Article 20(3) which may be carried over until it is fully used;

(b) appropriations corresponding to external assigned revenue. Such appropriations shall be fully used by the time all the operations relating to the programme or action to which they are assigned have been carried out or they may be carried over and used for the succeeding programme or action.

5. Appropriations for staff expenditure shall not be carried over. For the purposes of this Article, staff expenditure comprises remuneration and allowances for the staff of Union bodies who are subject to the Staff Regulations.

6. Non-differentiated appropriations legally committed by the end of the financial year shall be paid until the end of the following financial year.

Article 13: Detailed provisions on cancellation and carryover of appropriations

1. The commitment appropriations and the non-differentiated appropriations referred to in point (a) of the first subparagraph of Article 12(2) may be carried over only if the commitments could not be made before 31 December of the financial year for reasons not attributable to the authorising officer and if the preparatory stages are sufficiently advanced to make it reasonable to expect that the commitment will be made by no later than 31 March of the following financial year, or, in relation to building projects, by 31 December of the following financial year.

2. Appropriations carried over in accordance with point (a) of Article 12(2) which have not been committed by 31 March of the following financial year or up to 31 December of the following year for amounts relating to building projects shall be automatically cancelled.

3. Appropriations carried over which have been cancelled shall be identified in the accounts.

Article 14: Decommitment of appropriations

1. Where budgetary commitments are decommitted in any financial year after the year in which they were made as a result of total or partial non-implementation of the actions for which they were earmarked, the appropriations corresponding to such decommitments shall be cancelled.
2. This Article shall not apply to external assigned revenue referred to in Article 20(2).

Article 15: Rules applicable in the event of late adoption of the budget of the EPPO

1. If the budget of the EPPO has not been definitively adopted at the beginning of the financial year, the rules set out in paragraphs 2 to 6 shall apply.
2. Commitments may be made per chapter up to a maximum of one quarter of the total appropriations authorised in the relevant chapter of the budget of the EPPO for the preceding financial year plus one-twelfth for each month that has elapsed.

The limit of the appropriations provided for in the statement of estimates of revenue and expenditure shall not be exceeded.

Payments may be made monthly per chapter up to a maximum of one twelfth of the appropriations authorised in the relevant chapter of the budget of the EPPO for the preceding financial year. However, that sum shall not exceed one twelfth of the appropriations provided for in the same chapter of the statement of estimates of revenue and expenditure.

3. The appropriations authorised in the relevant chapter of the budget of the EPPO for the preceding financial year, as referred to in paragraph 2, shall be understood as referring to the appropriations voted in the budget of the EPPO, including by amending budgets, and after adjustment for the transfers made during that financial year.
4. If the continuity of EPPO action and management needs so require, the College may, on a proposal made by the European Chief Prosecutor and drawn up by the Administrative Director, authorise expenditure in excess of one provisional twelfth but not exceeding a total of four provisional twelfths, except in duly justified cases, both for commitments and for payments over and above those automatically made available in accordance with paragraph 2.

The additional twelfths shall be authorised in full and shall not be divisible.

5. If, for a given chapter, the authorisation of four provisional twelfths granted in accordance with paragraph 4 is not sufficient to cover the expenditure necessary to avoid a break in continuity of action by the EPPO in the area covered by the chapter in question, authorisation may exceptionally be given by the College, at the request of the European Chief Prosecutor, to exceed the amount of the appropriations entered in the corresponding chapter of the

budget of the EPPO for the preceding financial year. However, the overall total of the appropriations available in the budget of the EPPO of the preceding financial year or in the statement of estimates of revenue and expenditure, as proposed, shall in no circumstances be exceeded.

Chapter 3: Principle of equilibrium

Article 16: Definition and scope

1. Revenue and payment appropriations shall be in balance.
2. Commitment appropriations may not exceed the amount of the Union contribution, plus own revenue and any other revenue referred to in Article 6.
3. For bodies for which the revenue is constituted by fees and charges in addition to the Union contribution, fees should be set at a level such as to avoid a significant accumulation of surplus. Where a significant positive or negative budget result, within the meaning of Article 100, becomes recurrent, the level of the fees and charges shall be revised.
4. The EPPO shall not raise loans within the framework of the budget of the EPPO.
5. The Union contribution to the EPPO shall constitute for the budget of the EPPO a balancing contribution and may be divided into a number of payments.
6. The EPPO shall implement rigorous cash management, taking due account of assigned revenue, in order to ensure that its cash balances are limited to duly justified requirements. With its payment requests it shall submit detailed and updated forecasts on its real cash requirements throughout the year, including information on assigned revenue.

Article 17: Balance from financial year

1. If the budget result within the meaning of Article 100 is positive, it shall be repaid to the Commission up to the amount of the contribution paid during the year. The part of the budget result exceeding the amount of the Union contribution paid during the year shall be entered in the budget of the EPPO for the following financial year as revenue.

The first subparagraph shall also apply when the revenue of the EPPO is constituted by fees and charges in addition to the Union contribution.

The difference between the contribution entered in the budget and that actually paid to the EPPO shall be cancelled.

2. In exceptional cases, where the constituent act provides that the revenues arising from fees and charges are assigned to particular items of expenditure, the EPPO may carry-over the balance of fees and charges as assigned revenue for the activities related to the provision of the services for which the fees are due.

3. If the budget result within the meaning of Article 100 is negative, it shall be entered in the budget of the EPPO for the following financial year as payment appropriations or, where appropriate, offset against positive budget result of the EPPO in the following financial years.

Where the fees and charges are assigned revenue the negative result related to this assigned revenue can be offset against the accumulated surplus from previous years, if available.

4. The revenue or payment appropriations shall be entered in the budget of the EPPO during the budgetary procedure using the letter of amendment procedure set out in Article 42 of Regulation (EU, Euratom) 2018/1046 or, while implementation of the budget of the EPPO is under way, by means of an amending budget.

An estimate of the budget result from year N - 1 will be provided by the EPPO no later than 31 January of the year N. This information shall be duly taken into account by the Commission when assessing the financial needs of the EPPO for the year N + 1.

Chapter 4: Principle of unit and account

Article 18: Use of euro

1. The budget shall be drawn up and implemented in euro and the accounts shall be presented in euro. However, for the cash-flow purposes referred to in Article 49, the accounting officer and, in the case of imprest accounts, the imprest administrators, and, for the needs of the administrative management of the EPPO, the authorising officer responsible, shall be authorised to carry out operations in other currencies.

2. Without prejudice to specific provisions laid down in sector-specific rules, or in specific contracts, grant agreements, contribution agreements and financing agreements, conversion by the authorising officer responsible shall be made using the daily euro exchange rate published in the C series of the *Official Journal of the European Union* of the day on which the payment order or recovery order is drawn up by the authorising body.

If no such daily rate is published, the authorising officer responsible shall use the one referred to in paragraph 3.

3. For the purposes of the accounts provided for in Articles 82, 83 and 84 of Regulation (EU, Euratom) 2018/1046 conversion between the euro and another currency shall be made using the monthly accounting exchange rate of the euro. That accounting exchange rate shall be established by the accounting officer of the Commission by means of any source of information regarded as reliable, based on the exchange rate on the penultimate working day of the month preceding that for which the rate is established.

4. Currency conversion operations shall be carried out in such a way as to avoid having a significant impact on the level of the Union co-financing or a detrimental impact on the budget. Where appropriate, the rate of conversion between the euro and other currencies may be calculated using the average of the daily exchange rate in a given period.

Chapter 5: Principle of universality

Article 19: Scope

Without prejudice to Article 20, total revenue shall cover total payment appropriations. Without prejudice to Article 24, all revenue and expenditure shall be entered in full without any adjustment against each other.

Article 20: Assigned revenue

1. External assigned revenue and internal assigned revenue shall be used to finance specific items of expenditure.

2. The following shall constitute external assigned revenue:

(a) financial contributions from Member States and third countries to certain activities of the EPPO insofar as this is provided for in the agreement concluded between the EPPO and the Member States or third countries in question;

(b) financial contributions from international organisations;

(c) financial contributions, not covered by point (a), to the EPPO's activities from third countries or non-Union bodies;

(d) revenue from agreements referred to in Article 7;

(e) internal assigned revenue referred to in paragraph 3, to the extent that it is ancillary to the other revenue referred to in points (a) to (c) of this paragraph;

(f) revenue from fees and charges referred to in Article 6(3).

3. The following shall constitute internal assigned revenue:

(a) revenue from third parties in respect of goods, services or work supplied at their request, with the exception of fees and charges referred to in point (b) of Article 6(3);

(b) revenue arising from the repayment, in accordance with Article 62, of amounts wrongly paid;

(c) proceeds from the supply of goods, services and works for Union institutions or other Union bodies;

(d) insurance payments received;

(e) revenue from lettings and from the sale of buildings and land;

(f) revenue arising from subsequent reimbursement of taxes pursuant to point (b) of Article 27(3) of Regulation (EU, Euratom) 2018/1046.

4. Assigned revenue shall be carried over and transferred in accordance with the provisions of points (a) and (b) of Article 12(4) and Article 27.
5. Without prejudice to point (f) of the second paragraph, the relevant constituent act may also assign the revenue for which it provides to specific items of expenditure. Unless specified otherwise in the relevant constituent act, such revenue shall constitute internal assigned revenue.
6. All items of revenue within the meaning of points (a) to (c) of paragraph 2 and points (a) and (c) of paragraph 3 shall cover all direct or indirect expenditure incurred by the activity or purpose in question.

Article 21: Structure to accommodate assigned revenue and provision of corresponding appropriations

1. The structure to accommodate assigned revenue in the budget of the EPPO shall comprise:

- (a) in the statement of revenue, a budget line to receive the revenue;
- (b) in the statement of expenditure, the budget remarks, including general remarks, showing which budget lines may receive the appropriations corresponding to the assigned revenue which are made available.

In the case referred to in point (a) of the first subparagraph, a token entry 'pro memoria' shall be made and the estimated revenue shall be shown for information in the remarks.

2. The appropriations corresponding to assigned revenue shall be made available automatically, both as commitment appropriations and as payment appropriations, when the revenue has been received by the EPPO.
3. By way of exception from paragraph 2, where assigned revenue stems from the implementation of a contribution agreement concluded pursuant to Article 7, the total amount of commitment appropriations may be made available upon entry into effect of the agreement concerned provided that the basic act with regard to the funds being delegated to the EPPO provides for the possibility to make use of annual instalments.

Article 22: Donations

1. The Administrative Director may accept any donation made to the EPPO, such as foundations, subsidies, gifts and bequests.
2. Acceptance of a donation of a value of EUR 50 000 or more which involves a financial charge or any type of obligation, including follow-up costs, exceeding 10 % of the value of the donation made, shall be subject to the prior authorisation of the College. The College shall take a decision within two months of the date on which the request for authorisation is submitted to it. If the College fails to take a decision within that period, the donation shall be deemed accepted.

3. The Administrative Director shall, at the request of the College, analyse, estimate and duly explain the financial charges, including follow-up costs, and any other obligations as referred to in paragraph 1 that the acceptance of the donation entails.

Article 23: Corporate Sponsorship

Article 26 of Regulation (EU, Euratom) 2018/1046 shall not apply to the EPPO.

Article 24: Rules on deductions and exchange rates adjustments

Article 27 of Regulation (EU, Euratom) 2018/1046 shall apply mutatis mutandis.

Chapter 6: Principle of specification

Article 25: General provisions

1. Appropriations shall be earmarked for specific purposes by title and chapter. The chapters shall be further subdivided into articles and lines.
2. In the budget of the EPPO, appropriations may only be transferred to lines for which the budget of the EPPO has authorised appropriations or which carry a token entry 'pro memoria'.
3. The limits referred to in Article 26 shall be calculated at the time the request for transfer is made and with reference to the appropriations provided in the budget of the EPPO, including amending budgets.
4. The amount to be taken into consideration for the purposes of calculating the limits referred to in Article 26 shall be the sum of the transfers to be made on the line from which transfers are being made, after adjustment for earlier transfers made.

Article 26: Transfers

1. The European Chief Prosecutor, on a proposal drawn up by the Administrative Director, may transfer appropriations:
 - (a) from one title to another up to a maximum of 10 % of the appropriations for the financial year shown on the line from which the transfer is made;
 - (b) from one chapter to another and within each chapter without limit.
2. Beyond the limit referred in paragraph 1, the European Chief Prosecutor may propose transfers of appropriations from one title to another to the College. The College shall have two weeks to oppose the proposed transfers. After that time limit, the proposed transfers shall be deemed to be adopted.
3. Proposals for transfers and transfers carried out under paragraphs 1 and 2 shall be accompanied by appropriate and detailed supporting documents showing the

implementation of appropriations and estimates of requirements up to the end of the financial year, both for the headings to be credited and for those from which the appropriations are drawn.

4. The authorising officer shall inform the European Chief Prosecutor who shall present to the College, as soon as possible, a report on all transfers made. The authoring officer shall inform the European Parliament and the Council of all transfers carried out under paragraph 2.

Article 27: Specific rules on transfers

Appropriations corresponding to assigned revenue may be transferred only if such revenue is used for the purpose for which it is assigned.

Chapter 7: Principle of sound financial management and performance

Article 28: Performance and principles of economy, efficiency and effectiveness

1. Appropriations shall be used in accordance with the principle of sound financial management, and thus be implemented respecting the following principles:

(a) the principle of economy which requires that the resources used by the EPPO in the pursuit of its activities shall be made available in due time, in appropriate quantity and quality and at the best price;

(b) the principle of efficiency which concerns the best relationship between the resources employed, the activities undertaken and the achievement of objectives;

(c) the principle of effectiveness which concerns the extent to which the objectives pursued are achieved through the activities undertaken.

2. In line with the principle of sound financial management, the use of appropriations shall focus on performance and for that purpose:

(a) objectives for programmes and activities shall be established *ex ante*;

(b) progress in the achievement of objectives shall be monitored with performance indicators;

(c) progress in, and problems with, the achievement of those objectives shall be reported to the European Parliament and the Council in accordance with point (d) of the first subparagraph of Article 32(5) and with point (b) of the first subparagraph of Article 48(1).

3. Specific, measurable, attainable, relevant and time-bound objectives as referred to in paragraphs 1 and 2 and relevant, accepted, credible, easy and robust indicators shall be defined where relevant. The indicators used to monitor the achievement of the objectives

shall cover all sectors. The Administrative Director shall provide the relevant information to the College annually. It shall be included in the Single Programming Document referred to in Article 32.

4. The EPPO shall carry out a benchmarking exercise referred to in Article 38 of this Decision.

The benchmarking exercise shall include:

(a) a review of the efficiency of the EPPO's horizontal services;

(b) a cost-benefit analysis of sharing services or transferring them entirely to another Union body or the Commission.

When carrying out the benchmarking exercise referred to in the first and the second subparagraph the EPPO shall make necessary arrangements to avoid any conflict of interests.

Article 29: Evaluations

1. Programmes and activities, other than those related to EPPO's investigations and operational work which involve sensitive data, that entail significant spending shall be subject to *ex-ante* and retrospective evaluations ('evaluation'), which shall be proportionate to the objectives and expenditure.

2. Ex-ante evaluations supporting the preparation of programmes and activities mentioned in paragraph 1 shall be based on evidence, if available, on the performance of related programmes or activities and shall identify and analyse the issues to be addressed, the added value of Union involvement, objectives, expected effects of different options and monitoring and evaluation arrangements.

3. Retrospective evaluations shall assess the performance of the programme or activity mentioned in paragraph 1, including aspects such as effectiveness, efficiency, coherence, relevance and EU added value. Retrospective evaluations shall be based on the information generated by the monitoring arrangements and indicators established for the action concerned. They shall be undertaken periodically and in sufficient time for the findings to be taken into account in *ex-ante* evaluations or impact assessments that support the preparation of related programmes and activities.

4. The Administrative Director shall prepare an action plan to follow-up on the conclusions of the evaluations referred to in paragraph 3 and inform the European Chief Prosecutor who will present a progress report to the Commission in the consolidated annual activity report referred to in Article 48 and regularly to the College.

5. The College shall scrutinise the implementation of the action plan referred to in paragraph 4.

Article 30: Internal control of budget implementation

1. Pursuant to the principle of sound financial management, the budget of the EPPO shall be

implemented in compliance with effective and efficient internal control.

2. For the purposes of the implementation of the budget of the EPPO, internal control shall be applied at all levels of management and shall be designed to provide reasonable assurance of achieving the following objectives:

- (a) effectiveness, efficiency and economy of operations;
- (b) reliability of reporting;
- (c) safeguarding of assets and information;
- (d) prevention, detection, correction and follow-up of fraud and irregularities;
- (e) adequate management of the risks relating to the legality and regularity of the underlying transactions, taking into account the multiannual character of programmes as well as the nature of the payments concerned.

3. Effective internal control shall be based on best international practices and shall include, in particular, the following elements:

- (a) segregation of tasks;
- (b) an appropriate risk management and control strategy that includes control at recipient level;
- (c) avoidance of conflicts of interests;
- (d) adequate audit trails and data integrity in data systems;
- (e) procedures for monitoring effectiveness and efficiency;
- (f) procedures for follow-up of identified internal control weaknesses and exceptions;
- (g) periodic assessment of the sound functioning of the internal control system.

4. Efficient internal control shall be based on the following elements:

- (a) the implementation of an appropriate risk management and control strategy coordinated among appropriate actors involved in the control chain;
- (b) the accessibility for all appropriate actors in the control chain of the results of controls carried out;
- (c) reliance, where appropriate, on independent audit opinions, provided that the quality of the underlying work is adequate and acceptable and that it was performed in accordance with agreed standards;
- (d) the timely application of corrective measures including, where appropriate, dissuasive penalties;
- (e) the elimination of multiple controls;
- (f) the improvement of the cost-benefit ratio of controls.

5. Where the EPPO runs also offices away from the main seat, the internal control system shall be designed in order to mitigate the specific risks of the activities of those offices.

Chapter 8: Principle of transparency

Article 31: Publication of accounts and budgets

1. The budget of the EPPO shall be established and implemented and the accounts presented in accordance with the principle of transparency.

2. A summary of the budget of the EPPO and any amending budget of the EPPO, as definitively adopted, shall be published in the *Official Journal of the European Union* within three months of their adoption.

The summary shall show the aggregated figures for each Title of the budget of the EPPO, the establishment plan and an estimate of the number of contract staff expressed in full-time equivalents for which appropriations are budgeted, and seconded national experts. It shall also indicate the equivalent information for the previous financial year.

3. The budget of the EPPO including the establishment plan and any amending budgets of the EPPO, as definitively adopted, as well as an indication of the number of contract staff expressed in full-time equivalents for which appropriations are budgeted, and of the number of seconded national experts, shall be transmitted for information to the European Parliament and the Council, the Court of Auditors and the Commission, and shall be published on the website of the EPPO within four weeks of their adoption.

4.
